

EMOJI SLEEP EYE MASK

LESSON OVERVIEW

OBJECTIVES

Campers will be able to hand sew a neck pillow.

MATERIALS

- Fabric & (fusible) fleece
- 1/4 inch (6mm) to 5/8 inch (1.5cm) elastic
- Scissors
- Pencils
- Thread & needle
- Pins
- Template
- [Video Tutorial](#) & [Add. Written](#)

DEMOS

1. Let's talk about.... Emojis, Where do they originate from? -When? 1998, What does the word mean? Japanese e (絵, "picture") + moji (文字, "character") (have the table of emojis.) Are there any specific meanings? What do they mean to you?
2. Look at the pictures, point out the techniques, establish the stages.

LESSON SEQUENCE

1. Decorate the front of your sleep mask with some kind of 'eye' design.
2. Pin the two mask pieces together. sew together. LEAVE A GAP AT LEAST 2 INCHES so you can lightly stuff the mask. (It just needs to be a little padded for comfort, not full like a stuffie) Check it fits comfortably over your eyes and add or take out the stuffing)
3. Sew up the gap where you stuffed it.
4. Now you need to measure a piece of elastic that fits comfortably around your head. Measure the elastic from one cheek. Pull a little stretch around the back of your head to the other cheek.
5. Sew one end of the elastic to the inside of one side of the mask. (poke the elastic through the two felt pieces and sew it in)

EMOJI SLEEP EYE MASK

LESSON SEQUENCE

6. Now hold the mask up to your face and measure the length of the elastic needed to go around the back of your head to the other side, (making sure it feels comfortable on your head.) When you have the right comfortable length Add 1 inch to it and cut.
7. Poke the extra inch into the other side of the mask and sew it on.
